

## INSTRUCTIONS FOR THE END-OF-TERM PRESENTATIONS

- Find partners and make groups of three students.
- Choose a topic about a problem in society or environment where geographers can offer some help or a solution.
- The aim of the task is delivering a team presentation + preparing a poster about your topic.
- FORM of presentation: 8 -10 minutes, structured, each student presents a part of the topic, be prepared for a discussion – listeners must ask questions
- FORM of the poster: 1 page, printable A4 format
- Upload your poster in „odevzdávárny“ before the presentations are delivered. The other students will read them.
- Presentations will be delivered in classes in weeks 10, 11 and 12

The task is a compulsory part of the course. It will be assessed, pass mark is always 60%.

### ASSESSMENT OF PRESENTATIONS

10% - structure – introduction, main part, ending

20% - a reasonable topic, clearly described and **analysed** for the listeners to understand well

10% - good and relevant slides

10% - balanced contribution of team members in speaking

20% - good English, signalling language (e.g. Firstly, Now I'll hand over to Jan. In conclusion,...)

20% - inviting audience to ask questions, dealing with questions (i.e. answering, reacting)

10% - each student must ask a question about (one of) the presentations in the class – reading the posters in advance will give you some ideas what to ask about, thus you collect more points for your team

### ASSESSMENT OF POSTERS

15% good layout

15% brief but informative

20% clear descriptions in good English (grammar, spelling, terminology)

15% relevant pictures, if necessary- explanations of some special terms

15% including sources

20% function – if it works well, if it introduces the topic clearly to non-expert academic audience

### HOW TO PREPARE A POSTER

A model poster:

It is from chemistry but the rules are the same.
