

Instalace serveru PostgreSQL 9.1

Nastavte si heslo, které si budete pamatovat

The screenshot shows the 'Setup' window for PostgreSQL 9.1, specifically the 'Password' step. The window title is 'Setup' and it has standard Windows window controls. The main content area is titled 'Password' and contains the following text: 'Please provide a password for the database superuser (postgres) and service account (postgres). If the service account already exists in Windows, you must enter the current password for the account. If the account does not exist, it will be created when you click 'Next'. Below this text are two text input fields: 'Password' and 'Retype password', both containing masked characters (dots). At the bottom of the window, there are three buttons: '< Back', 'Next >', and 'Cancel'. The text 'BitRock Installer' is visible in the bottom left corner.

Port ponechte 5432

The screenshot shows the 'Setup' window for PostgreSQL 9.1, specifically the 'Port' step. The window title is 'Setup' and it has standard Windows window controls. The main content area is titled 'Port' and contains the following text: 'Please select the port number the server should listen on.' Below this text is a text input field labeled 'Port' with the value '5432' entered. At the bottom of the window, there are three buttons: '< Back', 'Next >', and 'Cancel'. The text 'BitRock Installer' is visible in the bottom left corner.
