

Instalace serveru PostgreSQL

1. Download z <http://www.enterprisedb.com/products-services-training/pgdownload#windows>
2. Zvolte verzi a operační systém
3. Spusťte instalaci

Nastavte si heslo, které si budete pamatovat

The screenshot shows a Windows-style window titled "Setup" with a blue header bar. The main content area is titled "Password" and contains the following text: "Please provide a password for the database superuser (postgres) and service account (postgres). If the service account already exists in Windows, you must enter the current password for the account. If the account does not exist, it will be created when you click 'Next'." Below this text are two input fields: "Password" and "Retype password", both containing seven black dots. At the bottom of the window, there are three buttons: "< Back", "Next >", and "Cancel". The text "BitRock Installer" is visible in the bottom left corner.

Port ponechte 5432

The screenshot shows a Windows-style window titled "Setup" with a blue header bar. The main content area is titled "Port" and contains the following text: "Please select the port number the server should listen on." Below this text is a single input field labeled "Port" containing the number "5432". At the bottom of the window, there are three buttons: "< Back", "Next >", and "Cancel". The text "BitRock Installer" is visible in the bottom left corner.
