### Listening Transcript

#### About Pavel Zemánek

Hello. My name is Pavel Zemánek and I come from Znojmo, although I have been living in Brno for five years. I am a **postgraduate student** **doing research in** eco-toxicology, which is a **field** that is **currently** producing very interesting **results**. Soon my **course** will be finished and so I am very busy **updating my CV** and **applying for jobs** with a companies that **specialize in** this kind of work. It would be nice if I could continue to work in this area after the **completion** of my **course**.

At the moment I am living in a bedsit near the centre of town but soon I am going **to share a flat** with some friends in a suburb of Brno. This will make it cheaper since we will **share** the rent between us.

5. a)
