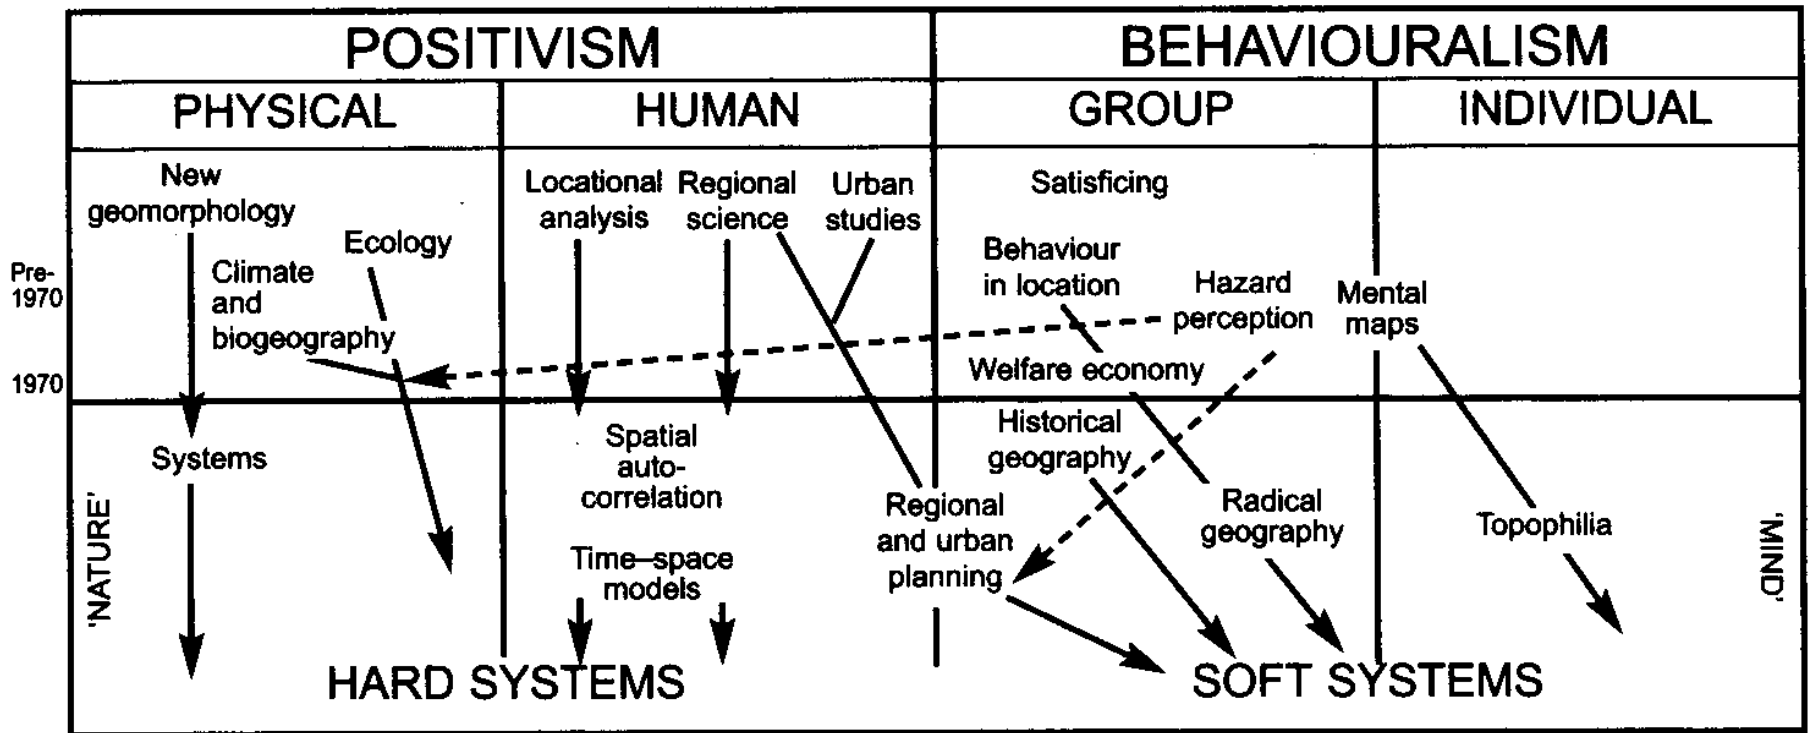

Figure 4.4 Geographical studies arranged according to relative 'hardness' or 'softness'
Source: This is an extract redrawn with permission from a diagram without a legend in Chorley (1976, p. 31)

Figure 3.5 Deduction, induction and abduction. On abduction the first arrow from empirical data to empirical rules and laws is 'dashed' to indicate that the real abduction starts with the 'lift' from empirical patterns to tentative theory

Source: From Alvesson and Sköldberg, 1994, p. 45.
