EOU2017

"Birds know no boundaries, and the same should hold for their study"
Every second year, the European Ornithologists' Union (EOU) convenes an international conference where the latest science in ornithology is discussed. In 2017 August 18-22, the 11th EOU conference is held in Turku, Finland
Welcome!

On this web site, information on the conference can be found. It is regularly updated as the conference approaches. You can stay updated by joining our mailing list [here](#)

You can read more about the EOU and previous conferences [here](#)

Welcome

Welcome to **Behaviour 2017**, a joint meeting of the 35th International Ethological Conference (IEC) and the 2017 Summer Meeting of the Association for the Study of Animal Behaviour (ASAB), that will be held from July 30 to August 4, 2017, in Estoril, Portugal.

We are very pleased to host Behaviour2017 in the Lisbon area! Lisbon hosts internationally significant research centers in the fields of Neuroscience and Behavior and in short-distance from the city you will find nature areas with an inspiring fauna for the study of Behaviour; from a resident bottlenose dolphin population (which inspired the conference logo) to many birds, fish and invertebrates, currently studied by different local labs.

The conference venue, located at the Estoril Congress Center, boasts a privileged location on the Estoril coast, 25 km away from Lisbon airport, and right next to the famous Casino with its surrounding gardens and sea view. This location has been chosen because it combines an excellent congress venue with plenty of accommodation with a relaxed environment and beach culture, which we hope will provide the right environment for networking among delegates. The Estoril Congress Center is also the only venue in Portugal certified as a Green Venue (EarthCheck's Silver Certification) for its good environmental practice and commitment to sustainable business, and its choice is in line with a strategy of an ecologically sustainable meeting for Behaviour2017.

Behaviour2017 will gather international professionals, academia members and students from all fields of behavior research, such as behavioural ecology, neuroethology, behavioural endocrinology, behavioural genomics, animal cognition, evolutionary biology, Human ethology, applied ethology, conservation ethology, animal welfare, modelling and many others.

Evolution 2017 is the joint conference of the [American Society of Naturalists](#), the [Society for the Study of Evolution](#), and the [Society of Systematic Biologists](#) that will be held from June 23-27 at the Oregon Convention Center in beautiful Portland, Oregon.

This meeting will be the premier opportunity for sharing research on evolutionary biology in 2017. We anticipate 1,800-2000 attendees, more than 1,000 talks, and 450+ posters. Social activities will include an opening reception and Gould Prize lecture, mixers during each of three evening poster sessions, and a Super Social at the newly expanded [Oregon Zoo](#) on the final night (no speeches). With the exception of only a small additional charge for the Super Social, all of this will be included with your registration.

Additional information will be posted soon, so stay tuned!

For general inquiries meeting inquiries please contact us at evolution.meetings@gmail.com.

the 2017 Congress of the European Society for Evolutionary Biology

20-25 August 2017 in Groningen, the Netherlands

IMPORTANT DATES

- **Notification symposium proposals: mid October, 2016**
- **Open submission abstracts: October 2016**
- **Deadline submission abstracts: December 15, 2016**
- **Notification of acceptance: February 1, 2017**
- **Open pre-registration for accepted abstracts: February 1, 2017**
- **Open registration for the conference February 15, 2017**

Groningen is a lively university town in the north of the Netherlands, connected with a direct train to Amsterdam (Schiphol). The venue will be the **Conference Centre MartiniPlaza** close to the **Groningen city center**. Due to space constraints, attendance is limited to 1500 participants, on a first-come, first-served basis.

A **welcome reception** will take place on Sunday 20 August.

Annual Meeting of the Society for Molecular Biology and Evolution 2017

July 2nd - 6th 2017
Austin, USA

The brand new JW Marriott Austin hotel is situated in the heart of Austin, just a 15-minute drive from Austin International Airport. Here, you'll experience the quiet luxury of a JW Marriott hotel with 1,012 elegant, oversized guest rooms, countless amenities and a superior location near some of the best attractions and entertainment options Austin has to offer—including the Sixth Street Entertainment District, South by Southwest Music Conference and Festival, Austin City Limits Music Festival, University of Texas and the Texas State Capitol.

This Austin hotel features more than 120,000 square feet of flexible meeting and event space and easy access to the Austin Convention Center—just two blocks away. And both business and leisure travelers alike will appreciate the variety of on-site restaurants, extensive state-of-the-art fitness center, outdoor pool and deck and much more, the perfect location for SMBE2017.

Congratulations to

About the International Congress for Conservation Biology

SCB's International Congress for Conservation Biology (ICCB) is the most important international meeting for conservation professionals and students.

ICCBs are a forum for addressing conservation challenges and for presenting new research and developments in conservation science and practice.

Most importantly, ICCBs connect our global community of conservation professionals and are the major networking outlet for anyone interested in conservation.

Dear Colleague,

We wish to extend a cordial invitation to you to participate in the

5th International Berlin Bat Meeting: Are bats special?

to be held from **24th - 26th February 2017** in Berlin, Germany.

With this conference, we would like to foster an exchange of ideas related to the question 'Are bats special?' We are especially keen on crossing disciplinary boundaries and hope that the discussion among ecologists, geneticists, morphologists, physiologists, immunologists, virologists and conservationists will advance the field substantially. We suggest several exciting topics as sessions or workshops. In addition, we have invited plenary speakers to review novel applications and exciting developments in their respective research areas.

We are looking forward to seeing you in Berlin in February 2017,

Christian C. Voigt and Gábor A. Czirják
Leibniz Institute for Zoo and Wildlife Research, Berlin

International Conference on Behaviour, Physiology and Genetics of Wildlife

The **10th International Conference on Behaviour, Physiology and Genetics of Wildlife** was held from **September 28th to October 1st, 2015**, in Berlin, Germany.

We wish to thank all participants and helpers for having contributed to a great conference!

Jörns Fickel, Anke Schumann, Sven Kühlmann, Steven Seet, Heribert Hofer
Leibniz Institute for Zoo and Wildlife Research, Berlin

We hope to see you again at the

11th International Conference on Behaviour, Physiology and Genetics of Wildlife, 2017 in Berlin!

Šťastnou cestu a mnoho zajímavých konferenčních zážitků i v roce 2017!
