

EARTH'S SPHERES

3

IN THIS LESSON YOU ARE GOING TO:

- ❑ **revise** the vocabulary and **grammar** from the previous lesson
- ❑ **discuss** the Earth's systems, compare and analyse them
- ❑ learn new **vocabulary**
- ❑ learn **how words are formed**

VOCABULARY

Biosphere	Geosphere	Hydrosphere	Atmosphere
surface	accessible	to evaporate	gaseous
to burrow	to disintegrate	to precipitate	to extend
variety	prominent	to blanket	radius
penetrate	to obtain	glacier	modest
vent	debris	meagre	intense
to spew	to decay	vital	to occur
to thrive	to decompose	unique	to resemble
to respond to	particles	to account for	dynamic

WORD FORMATION

Gaseous

/'gæsiəs/

Gaseous = a suffix with the meanings “composed of,” “resembling, having the nature of,” occurring in loanwords from Latin (e. g. igneous)
